# Industries We Serve

## **Agro & Food Processing**

We provide advanced cold storage and blast freezing solutions to preserve freshness, extend shelf life, and reduce spoilage across fruits, vegetables, meat, and poultry.

## **Pharma & Healthcare**

Temperature-sensitive medicines and vaccines require strict cold chain compliance. Our refrigeration systems ensure reliable performance with 24/7 temperature monitoring.

## **Ice Cream & Dairy**

We offer customized cold rooms, hardening tunnels, and deep freezing solutions for dairy and frozen dessert storage—ensuring product consistency and safety.

## **Retail Chains & Cold Warehousing**

From compact store coolers to large multi-chamber warehouses, we design and build efficient cold storage systems integrated with racking, fire safety, and HVAC.

## **Logistics & Distribution**

Our turnkey cold chain infrastructure supports hubs, transit points, and last-mile storage with energy-efficient systems and real-time tracking for perishable goods.
